with Key West style art. Great for big parties or family get togethers. See the descriptions below for a detailed look at each unit:

"Traveler's Palm" - a room ahead of its time - A truly "green unit". Your roommate or in this case "suite mate" is a giant Sapodilla tree that provides the ambiance and shade to your private Jacuzzi and treetop hammock. The second-story studio apartment comes complete with mini kitchen (no stove), microwave, fridge, sink and all the tools for preparing drinks and snacks. The spacious apartment has a King bed, a full-size sleeper sofa, enough room for a cozy foursome and skylights to let the tropic nights fill the room and your dreams.

"Traveler's Palm" is the most adorable treetop apartment and is perfect for any weekend or romantic getaway!

"Coconut Palm" - Take a lot of history and a lot of charm - mix it with a great location and you have the perfect Key West hideaway. A vacation rental home built and operated in the late 1800's as the city's hack concession and stables, has been transformed with bits and baubles from around the world - carved headboard from Thailand, bed from Costa Rica, and the locally sculpted Spoonbill standing on the well that provided water to the stables. The kitchen of this vacation rental is complete down to the most important item - the drink blender! The seasonally heated pool lets you cool off between lazy naps on the porch and contemplate your "night moves" - BBQ in or off to one of the Islands' great restaurants and finish off with a nightcap under the tropical stars and palm trees.

Other little things included: Daily maid service, 3 Queen Beds, air-conditioning, wireless broadband internet connection, ceiling fans, hairdryers, shared washer & dryer - ice machine for never ending "boat drinks", and a Bose radio/CD for that Island music.

"Royal Palm" - What an idyllic setting! Picture the most perfect romantic getaway cottage with all the must have's for a great Key West vacation - in a setting that nature provided in the late 1800's - the hardwood canopy is stunning! The Tommy Bahama furniture is set off by the marble floors and the small mini kitchen; refrigerator, coffee maker, drink blender, toaster, and microwave makes relaxing in your own private hot tub, replete with Tiki Hut, as festive or relaxing as your mood dictates.If you want, move the party outdoors - a grill in a private outdoor setting completes the picture with a Key West original - a private outdoor shower! Of course, it's

big enough for two! Got you dreaming yet? It's a tough choice - a block to Duval Street - doors down from the Hemingway House. Watch TV in bed on your LCD flat screen TV, and if you're still stumped call us, we're always there to assist you!
